ABSTRACT

This statistical document from the University of Alaska Anchorage provides charts and graphs regarding students and student activities at the college and its community college campuses in the fall of 1999. Included is information on student headcount and credit hours, majors by specific college within the university, credit hours by discipline, and student head counts and majors at their branch campuses. Overall, at the main campus, enrollment was down by 2% in fall 1999 from the previous fall. The main campus had a total student head count of 11,733, of which 44% were full time. Of the full-time students on the main campus, both males and females were equally represented, but females were almost twice as likely to be part-time students. Over the last 5 years the community and technical colleges, the school of engineering, and the college of health, education, and social welfare lost a substantial number of students. During the same time period, the college of business and public policy and the college of arts and sciences also lost students but not to the same degree as the other colleges at the university. Some of this loss in student head count can be attributed to the 23% increase in students who were undeclared and therefore not affiliated with a school or college. (LD)

NOTE:

1. *Total UAA* includes Anchorage, Kenai, Kodiak, Mat-Su, Military Programs, UALC (RD), and PWSCC.
2. Military Programs does not include Elmendorf AFB or Ft. Richardson.
3. Headcount includes students enrolled in credit courses at the 050 level and above, with auditors.
4. Percentages may not add to 100 due to rounding.
5. For this table, and all tables which include class standing, the following definition was used for *first-time freshman*: Student admitted with an admit code of "FT" (first-time admitted), and having a student type of "F" (first-time enrolling), or a student type of "C" (continuing enrollment)--for those continuing to Fall from Summer. The current semester is the first time the student has ever attended an institution of higher education. Except, the student could have been first-time in Summer semester and continued into Fall, and still be a first-time freshman. The current definition does not include students who could be first-time freshmen if they are current high school graduates, even though they may have taken courses for credit previously. A process for identifying these students has begun and future reports should include this sub-group as well.
6. For this table, and all tables which include *Alaska Region of Origin*, the following definition was used: Alaska Region of Origin determined by using the origin at entry (OE) address given by students at the time of enrollment. For students who did not provide an OE address, the mailing address was used to determine origin at entry.

NOTES:

* For the purposes of this report, Special Undergraduate students are defined as students who are non-degree seeking, but pursuing a given program of study associated with a school or college. For instance, students requiring coursework for State of Alaska teacher certification are identified in the College of Health, Education, and Social Welfare as seeking Teacher Certificates, although there is no formal program for such certification. Likewise, WWAMI students are not formally admitted to a UAA program of study, but are identified in the Biomedical Program. In addition, there are some students associated with schools/colleges who have been identified as special undergraduates in error, and represent inconsistent data.

** Not Declared students are those who are not formally admitted to any program of study.

NOTE:

1. Headcount includes students enrolled in credit courses at the 050 level and above, with auditors.
2. For this table, and all tables which include *Alaska Region of Origin*, the following definition was used:
   Alaska Region of Origin determined by using the origin at entry (OE) address given by students at the time of enrollment.
   For students who did not provide an OE address, the mailing address was used to determine origin at entry.

NOTE:

1. *Total UAA* includes all campuses, including Prince Wm Sound Community College.
2. Headcount includes students enrolled in credit courses at the 050 level and above, with auditors.
3. Percentages may not add to 100 due to rounding.
4. New definition for first-time freshmen. UAA Admissions office included freshmen with less than 30 cumulative hours, and who were first-time at UAA, in "First-time Freshmen." Previous definition included only those students who were enrolling in higher education for the first-time.
